

NELSON: THE IMMORTAL MEMORY (Conways History of the Ship)

Here, from two of the United Kingdoms finest naval historians, is an immensely human portrait of Horatio Nelson, the most honored naval leader Britain has ever known. A great seaman and tactician who possessed an extraordinary ability to inspire respect and devotion, Nelson was a mass of contradictions-humble yet ambitious, kind but at times petulant, exceptionally charming but often vain and self-pitying, unswerving in his sense of professional duty yet involved in a scandalous love affair. The Howarths have captured not only the man but his time, evoking a remarkable sense of what it was like to sail the seas in Nelson's day, in peace and in war. The great battles of St Vincent, the Nile and Copenhagen spring to life, as do the achievements of the British blockading fleet off the French coast in the months and years before the victory at Trafalgar-a victory so decisive and devastating that it put an end to war at sea for a century. The late David Howarth was also the author of *Trafalgar: The Nelson Touch* and *Waterloo: Day of Battle*. His son, Stephen, is an acclaimed author and experienced sailor.
