

Bluejackets in the Blubber Room: A Biography of the William Badger, 1828-1865

Bluejackets in the Blubber Room explores key events in US maritime history from the 1820s to the end of the Civil War through the biography of the sailing ship William Badger. While there are a number of books that deal with whaling vessels, Bluejackets in the Blubber Room makes a contribution to naval and maritime literature. This book enhances the understanding of the Navy during the Civil War by bringing to light one of the forgotten logistical vessels. These ships had an important role in the maintenance of the blockade and the eventual defeat of the Confederacy. The book is a dual and diverse history that will be of interest to Civil War historians and those interested in whaling. Robert M. Browning Jr., Chief Historian of the United States Coast Guard and author of From Cape Charles to Cape Fear: The North Atlantic Blockading Squadron during the Civil War
