

Anthropology

Comprehensive, readable and written for the student, Haviland/Prins/Walwrath/McBrides market-leading text, CULTURAL ANTHROPOLOGY, is a highly relevant, high-quality teaching tool. The narrative voice of the text has been thoroughly internationalized and the we:they Western voice has been replaced with an inclusive one that will resonate with both Western and non-Western students and professors. In addition, gender, ethnicity, and stratification concepts and terminologies have been completely overhauled in accordance with contemporary thinking and the narrative streamlined using more fully developed, balanced, and global examples. In CULTURAL ANTHROPOLOGY, the authors present students with examples of local responses to challenging globalization issues, designed to provide students with a cross-cultural survival guide for living in the diverse, multicultural world of the 21st century. This edition is a truly exciting and unique examination into the field of cultural anthropology, its insights, its relevance, and the continuing role of cultural survival issues.
