

Anchor of Resolve: A History of U.S. Naval Forces Central Command/Fifth Fleet

Americas interests in the Middle East, Southwest Asia, and eastern Africa date almost to the founding of the nation. Since World War II, the United States Navy has been the first line of defense for these interests. From the establishment of the Middle East Force in 1949 through the beginning of the twenty-first century, the U.S. Navy served as a force for stability and peace in the region. The Navys presence helped prevent regional crises from escalating into wars, enforce international sanctions, and minimize damage done by regional conflicts to American and allied interests. When there has been no other alternative, the Navy has gone to war by sea, air, and land to defend these interests. The Navys presence also resulted in peaceful operations such as humanitarian assistance, maritime rescue, and military exercises with regional allies. Early in the twenty-first century, the U.S. Naval Forces Central Command/Fifth Fleet area of responsibility encompassed about 7.5 million square miles of the earths surface, including the Arabian Gulf, North Arabian Sea, Gulf of Oman, Gulf of Aden, Red Sea, and parts of the Indian Ocean. This expanse comprised 27 countries and three critical chokepoints at the Strait of Hormuz, the Suez Canal, and the Bab al-Mandeb at the southern tip of Yemen. The Navy owes its success in this region to the patriotism, professionalism, pride, hard work, and self-sacrifice of the officers and enlisted men and women assigned to U.S. Naval Forces Central Command/Fifth Fleet. This is their story. This illustrated history explains why the Navy is present in the Middle East, how long its been in the region, and what its been doing there. Americas interests in the Middle East, southwest Asia, and eastern Africa date almost to the founding of the nation. Since World War II, the Navy has been the first line of defense for these interests. From the establishment of the Middle East Force

(MEF) in 1949 through the beginning of the 21st century, the U.S. Navy served as a force for stability and peace in the region. The Navys presence helped prevent regional crises from escalating into wars, enforce international sanctions, and minimize damage done by regional conflicts to American and allied interests. The work concentrates on the Navys command relationships, roles and missions, and operations in the period leading up to the First Gulf War, the war itself, and the wars in Afghanistan and Iraq.
