

Bidness as Usual: The e-Book

Over the course of the 83rd legislative session, the Tribune produced more than 60 articles, videos and visualizations on ethics and transparency among the states elected officials, a project we dubbed Bidness as Usual. The revelations: Members of the Legislature routinely carried bills and took votes on issues near and dear to their pocketbooks and used the weight of their office to enrich themselves and their families. The project sparked a litany of ethics legislation, including measures that would have put lawmakers financial disclosure reports on the Internet and forced legislators to report their business contracts with government entities. In the end, little reform passed, and the elements that did were vetoed by Gov. Rick Perry. But this series, reproduced in full in this e-book, sparked the loudest conversation in years around ethics and transparency reform in Texas.
