

Gestapo Chief : The 1948 Interrogation of Heinrich Muller

Taken directly from top Secret transcripts made in 1948, Mllers private files and from material hidden for fifty years in US intelligence archives, this book gives a brutally frank look into the intelligence agencies of both Allied and Axis powers. From the viewpoint of many, the reproduction of a trans-Atlantic secret telephone conversation between Churchill and Roosevelt on November 26, 1941, in which the imminent attack on Pearl Harbor is discussed, is the high point of the book.
