

## Through the Eyes of Women: Gender, Social Networks, Family and Structural Change in Latin America and the Caribbean (International Studies in Social Science,)

This volume examines the effects of neoliberal reforms on daily life in Latin America and the Caribbean, as seen through the eyes of women. The contributions in this volume situate women in their sociocultural milieus, so that women's perceptions and assessments are examined through a lens that includes the lives of other women, men and other members of the women's families, work settings, communities, and political and religious organizations.
