

Faith and Freedom

In the cynical world of today, a simple act of faith is a rare phenomenon; modern philosophy seems to run to pessimism, disbelief and an all-too-ready willingness to condemn what time, tradition and the experiences of men have hallowed. Yet this inspiring book by Wallace F. Bennett is essentially an act of faith. It is a simple, modest, non-rhetorical and non-argumentative exposition of the American philosophy - spiritual, political and economic.
