

Foxtrots of the Indian Navy

Cmde. P.R. Franklin, AVSM, VSM (retd.) narrates some true accounts of the Soviet Foxtrot submarines that were in Indian Navy service. The names of the eight Foxtrots have been anagrammed to arrive at the name Vanshali, which is the central submarine character of these narratives. The book covers a spectrum of the activities of Foxtrots in the service including facets of training in the USSR, taking possession, bringing them to India, wartime and peacetime activities, and finally beaching a Foxtrot for display as a museum. The book has interesting revelations of a brush with a nuclear submarine in the Arabian Sea and of an Indian submarines predicament when confronted with the situation of meeting up with the American Carrier USS Enterprise when it entered the Bay of Bengal during 1971 Indo-Pak war.
