

## Missing Survivors - Searching for Family Lost During the Holocaust

Millions of people - especially children - were separated during the Holocaust of World War II. Families were ripped apart by Nazis who controlled most of Eastern Europe. Many are still searching, hoping and praying to find their loved ones. I compiled in this book a list of over 200 search requests that I received over the years. The best way I know to help people find their missing family or friends is to publish this list again. Time for some is running out. Many of these requests are also firsthand testimonials that reflect the emotional toll that continues to haunt the survivors.
