

## 1st Lt. Raymond Miller Pilot: B-17G Flying Fortress WWII

Many World War II exploits took place away from the spotlight. Raymond Miller brings his gift to the story of Service and Duty. How he chose to leave Purdue University, ROTC, a basketball team and parents behind to help bring a dictator to heel as co-pilot of a B-17G Flying Fortress Bomber. On Raymonds second combat mission he nearly lost his life from a piece of shrapnel to the throat and shattered breast bone. After surgery and rehab he resumed to co-pilot twenty more combat missions encountering the best the Germans could throw against them. Theyd leave out to fly a mission over hostile territory not knowing when they might be hit or knowing if they would return. There were flights where the crews gulp to alleviate fear, for they felt there were no havens of security in an Allied victory that at times seemed importable. Raymond Miller feels honored to have been able to serve his country. Raymonds story gives a compelling glimpse of three brothers value that characterized their early years and their United States Army Air Corps years of dedication. Raymond says, I feel blessed for God has been good to me.
