

# Inciting Democracy: A Practical Proposal for Creating a Good Society

Inciting Democracy offers a vision of what a good society might look like and explores how we can overcome five key obstacles to creating such a society. It offers a practical proposal to develop a large, decentralized education and support program that can increase the knowledge and strength of hundreds of thousands of goodhearted people so they can democratically and nonviolently transform society. It also provides a realistic, long-term vision of success -- a vision that can encourage people working for positive change, thus making success more likely.
