

# Less We Can: The Case for Less Government, More Liberty, More Prosperity, and More Security

Libertarian Mark Grannis explains why so many of the best things in life expand when government shrinks; why less government means more liberty, more prosperity, and more security. Instead of approaching every social problem with the unstated assumption that there must be a government solution, Grannis argues in this collection of essays that we can take care of ourselves and each other with much less government help than politicians have tried to give us.
