

## Letters from France (WWI Centenary Series)

These letters are in no sense a history-except that they contain the truth. They were written at the time and within close range of the events they describe. Half of the fighting, including the brave attack before Fromelles, is left untouched on, for these pages do not attempt to narrate the full story of the Australian Imperial Force in France. They were written to depict the surroundings in which, and the spirit with which, that history has been made; first in the quiet green Flemish lowlands, then with a swift, sudden plunge into the grim, reeking, naked desolation of the Somme. This book is part of the World War One Centenary series; creating, collating and reprinting new and old works of poetry, fiction, autobiography and analysis. The series forms a commemorative tribute to mark the passing of one of the worlds bloodiest wars, offering new perspectives on this tragic yet fascinating period of human history. Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context.
