

North American F-86H Sabre Hog (Air Force Legends)

The F-86 Sabre is well known for its success during the Korean conflict. The F-86H was built in relatively small numbers (475); its service with front line squadrons of the USAF was brief but it had a long service with the Air National Guard. Its service with the Air National Guard proved both dependable and popular. This book lists all the squadrons of the USAF and the Air National Guard that used the F-86H. This book talks about the modification made to the aircraft along with the in-flight evaluation of the F-86H-1 by Corwin Corky Meyers and tells how it compares with the Grumman F9F-8 Cougar.
