

HELL Echoes the Ashes Of AUSCHWITZ: True autobiography of Gods Providence at work in saving this mans life, out of the Holocaust.

A True Story out of World War II. FORMER SECRETS ARE NOW REVEALED of how Adolph Hitlers S.S. Empire made the popular Rivf soap from the ashes of the Holocaust victims in this true autobiography of Joel Edelman, known to many as Joe the Barber. General Dwight Eisenhower and his troops and our allies suspected this horror, but could never secure proof. Evidences of the genocide to destroy this human species is inside the book. The living proof is related by the man whose job was making the soap and who was responsible for turning the deadly tumbler for the fiery ovens of Auschwitz! Mr. Edelman was born in Poland in 1915 and died in the United States in 1995. We published his autobiography at the fortieth anniversary of the Holocaust. It is very important that we make this information available in 2015 to an audience world-wide, which would be the 100th birthday of Mr. Edelman and the 70th anniversary of the Holocaust.
