

Strong Men Armed: The United States Marines Against Japan

Written by Robert Leckie, whose wartime exploits are featured in the Tom Hanks/Steven Spielberg HBO miniseries *The Pacific*, *Strong Men Armed* is the perennial bestselling classic account of the U.S. Marines relentless drive through the Pacific during World War II. As scout and machine-gunner for the First Marine Division, Leckie fought in all its engagements until his wounding at Peleliu. In *Strong Men Armed*, Leckie uses firsthand experience and impeccable research to re-create the nightmarish battles of the Pacific campaign---from Guadalcanal to Okinawa---as ships, men, and guns moved over vast distances to fight an enemy that was willing to defend to its last man. Here is the whole sweeping epic of the Marines who battled---and won---on the bloody beaches at Guadalcanal, the unforgiving reefs at Tarawa, the rain-soaked mud of New Britain, the dark gray soil and deadly caves of Mount Suribachi, and the muddy slopes of Shuri Castle on Okinawa. It is a masterful narrative by a writer the *New York Times* praised as possessing the rare gift of capturing all that is human in the most inhuman of mans activities.
