

The Encyclopedia of Trouble and Spaciousness

The incomparable Rebecca Solnit, author of more than a dozen acclaimed, prizewinning books of nonfiction, brings the same dazzling writing to the essays in *Encyclopedia of Trouble and Spaciousness*. As the title suggests, the territory of Solnit's concerns is vast, and in her signature alchemical style she combines commentary on history, justice, war and peace, and explorations of place, art, and community, all while writing with the lyricism of a poet to achieve incandescence and wisdom. Gathered here are celebrated iconic essays along with little-known pieces that create a powerful survey of the world we live in, from the jungles of the Zapatistas in Mexico to the splendors of the Arctic. This rich collection tours places as diverse as Haiti and Iceland; movements like Occupy Wall Street and the Arab Spring; an original take on the question of who did Henry David Thoreaus laundry; and a searching look at what the hatred of country music really means. Solnit moves nimbly from Orwell to Elvis, to contemporary urban gardening to 1970s California macrame and punk rock, and on to searing questions about the environment, freedom, family, class, work, and friendship. Its no wonder shes been compared in *Bookforum* to Susan Sontag and Annie Dillard and in the *San Francisco Chronicle* to Joan Didion. The *Encyclopedia of Trouble and Spaciousness* proves Rebecca Solnit worthy of the accolades and honors shes received. Rarely can a reader find such penetrating critiques of our time and its failures leavened with such generous heapings of hope. Solnit looks back to history and the progress of political movements to find an antidote to despair in what many feel as lost causes. In its encyclopedic reach and its generous compassion, Solnit's collection charts a way through the thickets of our complex social and political worlds. Her essays are a beacon for readers looking for alternative

ideas in these imperiled times.
