

The Feeling Buddha: A Buddhist Psychology of Character, Adversity and Passion

With astonishing simplicity, David Brazier has distilled in *The Feeling Buddha* the essence of the Buddha's message from a talk the Buddha gave after he attained enlightenment. Here the Buddha spelled out a practical approach to the problems of life, defining spirituality as the art of converting base passion into noble engagement. *The Feeling Buddha* makes the teachings of India's greatest sage, who finally emerges here as a very human figure full of passion, ultimately accessible. It also serves as a practical guide for living life fully and deeply today, enhanced by Brazier's unique experience as a social worker, Buddhist minister and psychotherapist. For students of Buddhism, it is a challenge to orthodoxy; for psychotherapists and philosophers, an insight into emotion and existential realities; and for the general reader, an inspiration.
