

Pacific Campaign: The U.S.-Japanese Naval War 1941-1945

Dan van der Vats naval histories have been acclaimed on both sides of the Atlantic as definitive, extraordinary, and vivid and harrowing. Now he turns to the greatest naval conflict in history: the Pacific campaign of World War II. Drawing on neglected archives of firsthand accounts from both sides, van der Vat interweaves eyewitness testimony with sharp, analytical narration to provide a penetrating reappraisal of the strategic and political background of both the Japanese and American forces, as well as a major reassessment of the role of intelligence on both sides. A comprehensive evaluation of all aspects of the war in the Pacific, *The Pacific Campaign* promises to be the standard work on the U.S.-Japanese war for years to come.
