

## The world at war

In *The World at War* Georg Brandes has collected some of his essays on the war and the events leading up to it, written before and during the great conflict. 1881: I do not believe that Socialism, as a party, will come to power in Germany within a reasonable number of years. Its influence will be limited to carrying out the obvious reforms of Bismarck's state-socialistic ideas. Yet this influence, such as it is, is considerable and creates a highly illogical situation, since doctrines pursued in the cellars as dangerous to the state are hailed from the housetops as the states only salvation. The initial publication was 1917 - during the war was going on.
