

Unesco Italia: Italian site of the world heritage list in the work of 14 photographers (Italian and English Edition)

Catalog of the UN.IT exhibition presented for the first time at the National Central Library of Rome from 14 February to 14 March 2008. In addition to the original introductory texts, which are also included in this new edition, the catalogue of the first exhibition included photographs of the 41 Italian sites that were inscribed on the UNESCO World Heritage List at that time. In later years as more sites were inscribed they were also added to the exhibition and the expanded catalogue, at each edition. The additions for 2013 are the Italian part of Monte San Giorgio (added to the Swiss part, which was already inscribed), the prehistoric pile-dwelling sites in the Alps (in Italy, Switzerland, France, Germany, Austria, and Slovenia), and The Lombards in Italy: Their places of power (568-774 AD); all have been photographed by Fossati, Guerrieri, and Romano. Some additional texts have been inserted in view of the substantial size of this update, the characteristics of the sites, and the number of photographs. The earlier texts remain unchanged.
