

The Great War In The Air: Military Aviation from 1909 to 1921 (Smithsonian History of Aviation Series)

This comprehensive study of the development and significance of airpower during World War I compares military, political, technological, industrial, and cultural aspects of airpower in the greater combatant powers (France, Germany, and England) and the lesser powers (Italy, Russia, Austria-Hungary, and the U.S.). 64 illustrations.
